

Project summary:

Ecology is proposing to submit to the EPA a revision of Washington's air quality State Implementation Plan (SIP) proposed by the Northwest Clean Air Agency (NWCAA). The proposed SIP revision updates portions of the NWCAA air quality regulation (Regulation of the Northwest Clean Air Agency) currently in the SIP that apply in NWCAA's jurisdiction of Whatcom, Island, and Skagit counties. NWCAA has already adopted the rules in the proposed SIP revision into their air quality regulation. Ecology proposes to include these revisions in the SIP to make them federally enforceable.
