Northwest Clean Air Agency
NOTIFICATION OF COMPLIANCE STATUS
Paint Stripping and Miscellaneous Surface Coating
Area Source Rule
Subpart HHHHHH (NESHAP 6H)
40 CFR 63.11169 - 63.11180

**This form may be used to meet the Notification of Compliance Status requirements of Subpart HHHHHH
(Please fill out a separate form for each location you are certifying)**

Company name: _____

Facility address: _____

City: _____ State: _____ ZIP: _____

Mailing/Billing address (if different): _____

City: _____ State: _____ ZIP: _____

Certifying official's name: _____ Are you the owner? ☐ Yes ☐ No

If not the owner, provide your title: _____

Contact phone: _____ Contact email: _____

Applicable requirements (Check boxes only if you are in compliance with the corresponding requirement)

Paint striping operations
40CFR 63.11173(a) through (d)

☐ 1. I am performing management practices to minimize MeCl evaporation. These include: Evaluating the need to strip parts, evaluating alternatives, reducing evaporation of stripper, using applications that reduce emissions (if heat required-use less heat), proper storage and disposal (use closed, air-tight containers

☐ 2. I maintain copies of my annual MeCl paint stripper usage on site at all times.

If you use more than 1 ton per year of MeCl:

☐ A "written" minimization plan has been developed containing information in #1 above.

☐ Signs are posted in all areas where MeCl strippers are used outlining the company's minimization plan

Surface coating operations
40CFR 63.11173(e) through (g)

☐ Painters are trained and certified in proper set-up, application of coatings, and maintenance of spray equipment.

☐ All spray-applied coatings are applied in a spray booth, preparation station, or mobile enclosure fitted with filters that achieve 98% capture efficiency. See additional criteria in 63.11173(e)(2)(ii) (e)(2)(iii) and (e)(2)(iv)

☐ All paint spray gun cleaning is done to avoid an atomized mist or spray of cleaning solvent and paint residue outside of a collection container. Additional examples in 63.11173(e)(4).

☐ All spray-applied coatings are being applied using a high volume, low pressure (HVLP) spray gun, electrostatic application, air-assisted airless spray gun, airless spray gun, or an equivalent technology.

Certification of Compliance:

☐ I am certifying that my operation or source is in compliance by checking this box and signing this form.

I certify, under penalty of law that the information on this notification form is true, accurate and complete to the best of my knowledge.
