

DRAFT Application for Coverage under General Order of Approval GO 002R1: Automotive Refinishing Facilities with a Spray Booth

I. INSTRUCTIONS

This application applies to automotive refinishing facilities with a proposed new or modified spray booth and associated preparation station (together referred to as spray booth) that is located within the jurisdiction of the Northwest Clean Air Agency (Island, Skagit, and Whatcom Counties, excluding tribal lands). To apply for coverage under this General Order of Approval GO 002R1, complete this application and submit it to the NWCAA. Coverage under this General Order is in lieu of submitting a Notice of Construction Application as required under Section 300 of the NWCAA Regulation.

- Read the General Order of Approval GO 002R1. (available online or call for a copy).
- Fill out this application completely.
- Mail or drop off the application together with the application fee (see Section III) to:

Phone: (360) 428-1617

Website: www.nwcleanairwa.gov

Northwest Clean Air Agency

1600 South 2nd Street

Mount Vernon, WA 98273-5202

II. COMPANY INFORMATION

Company Name:

Company Mailing Address (street, city, state, zip):

Name and Title of Contact Person:

Phone Number of Contact Person:

Email Address of Contact Person:

Name of Facility

Physical Location of Facility (street, city, state, zip):

III. CHECKLIST

YES ___ NO___	The spray booth <u>will only</u> be used for automotive refinishing work.
YES ___ NO___	The spray booth <u>will</u> be installed inside a building and exhaust outside.
YES ___ NO___	All of the spray guns used in the spray booth will be either high volume-low pressure (HVLP), electrostatic or equivalent transfer efficiency spray guns.
YES ___ NO___	All coatings contain 3.6% (by weight), <u>or less</u> , ethylbenzene.
YES ___ NO___	<u>No</u> coatings or solvents will be used in the spray booth that contain cadmium, lead, hexavalent chromium (chromates) or manganese.
YES ___ NO___	The combined total of all coatings and solvents used in the spray booth <u>will</u> be less than 490 gallons in each consecutive 12-month period.
YES ___ NO___	The spray booth stack <u>will</u> discharge vertically without obstruction at least 6 feet above the building roof.
YES ___ NO___	The spray booth exhaust filters <u>will</u> be at least 98% efficient at controlling particulate matter as determined by ASHRAE Method 52.1 or 52.2.
YES ___ NO___	The spray booth <u>will</u> be equipped with a manometer or magnehelic capable of measuring the pressure drop across the exhaust filters.
YES ___ NO___	All spray gun cleaning <u>will</u> be done in an enclosed cleaning device or by disassembling the guns and cleaning parts in a container.
YES ___ NO___	There have been <u>no</u> other spray booths installed at the facility within the last 18 months.
YES ___ NO___	The automotive spray coating operations at the proposed location <u>are</u> allowed by the city, or if in an unincorporated area, allowed by the county.

If ANY of the answers to the questions in the above checklist are NO, the spray booth is NOT eligible for coverage under General Order of Approval 002. If the project is not eligible for coverage under this General Order, you are required to submit an application for a case-by-case permit (known as a Notice of Construction application) for the project in accordance with Section 300 of the NWCAA Regulation.

III. APPLICATION FEE

A review fee of \$924 is required with this application for coverage. If paying by check, include check with the application. If paying by credit card, go to our website and submit online. Please call if the online system is not active.	
Has the \$924 review fee been submitted to the NWCAA at the same time as this application?	
YES ___ NO___	If no, please explain

IV. SIGNATURE

I certify, based on information and belief formed after reasonable inquiry, that the statements and information in this application are true, accurate, and complete.	
Print Name _____	Title _____
