

Northwest Clean Air Agency (NWCAA)
REASONABLY AVAILABLE CONTROL
TECHNOLOGY (RACT) FEE SCHEDULE
(NWCAA 324.6)

Effective January 1, 2021

Approved by the NWCAA Board of Directors on November 14, 2013 under Resolution 490

Pursuant to RCW 70.94.154(7), the fee for Reasonably Available Control Technology (RACT) determinations shall be imposed as follows:

- NWCAA staff-time fee shall be \$145 per person-hour. The NWCAA shall periodically bill each source or sources included in the RACT determination an amount equal to each source's proportionate share of said NWCAA staff time fees.
- If the NWCAA engages a consultant to prepare RACT analyses, in whole or in part, then reasonable consultant fees and costs shall be part of the fee for RACT determinations. The NWCAA shall periodically bill the source or sources included in the RACT determination an amount equal to each source's proportionate share of said consultant fees and costs.

The intent of this fee schedule is to accomplish the following: for source-specific RACT determinations, the amount of fees to be paid by a source shall equal the direct and indirect costs of establishing the RACT determination as determined by the NWCAA. For categorical RACT determinations, the amount of fees to be paid by a source shall equal the source's proportionate share of the direct and indirect costs as determined by the NWCAA. Any and all fees will be invoiced to the source periodically and shall be due upon receipt of the invoice and delinquent 30 days after invoice.
