## **PUBLIC NOTICE**

### **NORTHWEST CLEAN AIR AGENCY DRAFT REGULATORY ORDER TO LIMIT FACILITY-WIDE EMISSIONS**

NOTICE IS HEREBY given that the Northwest Clean Air Agency (NWCAA) will take action on and seeks comments on a DRAFT Order to limit the facility-wide emissions of Volatile Organic Compounds (VOCs) for:

Petrogas Ferndale Terminal  
4100 Unick Road  
Ferndale WA, 98248

This type of facility-wide limit is also known as a "synthetic minor".

The Petrogas Ferndale Terminal (the facility) is a propane and butane product storage, processing, and transfer facility. The facility receives products by rail, pipeline, and truck. Products are stored in tanks connected to either a high-pressure system or a low-pressure system, which is refrigerated. Products from the low-pressure system are shipped out via marine vessels. Products from the high-pressure system are shipped out via rail, truck, or pipeline.

This Regulatory Order (Order) establishes a federally enforceable limit upon the facility's potential-to-emit VOCs. Compliance with this limit, which was requested by the facility, limits facility-wide emissions below major source thresholds. This will allow the facility to stay below the applicability thresholds of the Air Operating Permit (AOP) program.

This Order does not approve the operation of any new equipment.

Copies of the draft Order and supporting documents are available online for review at <https://nwcleanairwa.gov/public-notices/> and at NWCAA's office (address below). Written comments relating to the issuance of this Order must be sent by close of business **December 26, 2022** to:

Agata McIntyre, Engineering Manager  
Northwest Clean Air Agency  
1600 South Second Street  
Mount Vernon, WA 98273  
Or email: [agatam@nwcleanairwa.gov](mailto:agatam@nwcleanairwa.gov)

Contact Agata McIntyre with any questions about this notice at 360-428-1617, ext 213.

NWCAA may hold a public hearing if the agency determines there is significant public interest. Requests for a public hearing must be received within the comment period. Any such requests must indicate the interest of the person or organization filing the request and describe why a public hearing is necessary.

NWCAA is publishing this Notice pursuant to the Washington State Clean Air Act (chapter 70.94 RCW). The Regulatory Order is issued pursuant to WAC 173-400-091 and NWCAA Section 121.
