## **PUBLIC NOTICE**

### **NORTHWEST CLEAN AIR AGENCY**

### **DRAFT AIR OPERATING PERMIT**

NOTICE IS HEREBY given that the Northwest Clean Air Agency (NWCAA) will take action on and seeks comments on a draft Air Operating Permit (AOP) renewal for the following facility:

**AIR LIQUIDE LARGE INDUSTRIES U.S. LP**  
**8581 South Texas Road**  
**Anacortes, WA 98221**

Air Liquide operates a Steam Methane Reformer to provide hydrogen and steam to the adjacent Puget Sound Refinery.

Air Liquide has been determined to be a support facility to the Puget Sound Refinery and is therefore a major source required to obtain an Air Operating Permit pursuant to Title V of the 1990 Federal Clean Air Act and chapter 173-401 of the Washington Administrative Code.

The AOP compiles existing air quality requirements and permits into one comprehensive document and establishes monitoring, recordkeeping and reporting procedures to assure compliance. The AOP does not approve emission increases or require emission decreases. The AOP must be renewed every 5 years. This action is a renewal of the existing AOP. For more information, see <http://nwcleanairwa.gov/permits-and-services/major-sources-of-air-pollution/>

Copies of the draft AOP and supporting documents are available online for review at [http://nwcleanairwa.gov/the-latest/#public\\_notices](http://nwcleanairwa.gov/the-latest/#public_notices). Written comments relating to the issuance of this AOP renewal must be sent by February 27, 2023. Submit comments and/or requests for documents to:

Christos Christoforou  
Northwest Clean Air Agency

NWCAA may hold a public hearing if the agency determines that there is significant public interest. Requests for a public hearing must be submitted within the comment period. Any such requests must indicate the interest of the person or organization filing the request, and describe why a public hearing is necessary.

NWCAA is publishing this notice pursuant to the Washington State Clean Air Act (RCW 70.94). The AOP is issued pursuant to Chapter 173-401 WAC and Title V of the federal Clean Air Act Amendments of 1990.
