Rescind Regulatory Order 26 (RO 26)

Dear Mr. Hunt,

Northwest Clean Air Agency (NWCAA) received your request to rescind Regulatory Order (RO) 26 on March 14, 2023. NWCAA issued RO 26 to the Anacortes Refinery in 2000, at the facility's request, to limit nitrogen oxides (NOx) emissions from Crude Heater F-101 while firing fuel oil and to document the use of Emission Reduction Credits (ERC). Because the heater is no longer able to burn fuel oil, this Order is no longer relevant.

In accordance with NWCAA Section 305, NWCAA posted public notice of the proposed action to rescind RO 26 on the NWCAA website on May \*\*, 2023. The notice requested comments from the public within a 30-day period, which ended on June \*\*, 2023. NWCAA received no public comments.

We hereby grant your request to rescind RO 26. Please contact me at 360-419-6765 if you have any questions about this action.

Sincerely,

M.J. "Lyn" Tober, P.E.  
Chemical Engineer
